## About Us

---

Incepted in 2002 in Koderma, Jharkhand, A.K.INTERNATIONALS is a firm that is resolute to provide only the best in the market. The company is the Manufacturer, Exporter and Supplier of Mica Scrap & Mica Flakes.

These products have been fine tuned to such an extent that they capture the tiniest. The company has its factory located in Koderma, Jharkhand in very clear and natural surroundings suitable for MICA Industries. Koderma is one of the districts of Jharkhand which is blessed with abundant natural resources and rich mineral deposits throughout the District. Koderma is also known as mica capital in India.

# Specification

## 1) MICA FLAKES

These Natural Mica Flakes are basically made from selected grade of ruby mica, which include muscovite, phlogopite, biotite, clintonite and others. Mica Flakes is generally used as a primary raw material in Pearlescent Pigment. While processing and manufacturing, the raw material is dried to avoid any humidity and then screened to avoid dust, after that all foreign particles like biotite, quartz, straw, bamboo, (organic & inorganic material) are removed manually by hand picking. Thus, all the impurities are removed and the material is sheared in Pulvigator and again screened to get the size (2-8) mesh of Natural High Purity Muscovite Ruby Mica Flakes.

**Packaging** :- Generally its packed in HDPE, Jute or paper bag of 25/50 kgs. But usually its depend up to the customer.

**Delivery** :- Minimum one 20' TEU (full container load of 20 ton)

GRADE (AAA)

GRADE (AA)

GRADE (A)

## 2) MICA SCRAP

The origin of mica scrap is from Koderma, Jharkhand. It is well known from all over the world because of its colour, high tensile strength and has extraordinary electrical and thermal properties. Mica Scrap is also known as its best calcination due to its high sustainability at temperature more than 900 degree celcius.

While processing & manufacturing, the raw material goes through hammer crushing, screening and then finally it gets ready.

**Packaging** :- Basically its packed in HDPE and Jute Bags of 50kgs each.

**Delivery** :- Minimum 20' TEU (full container load of 27 ton)

RUBY MICA SCRAP

GREEN MICA SCRAP

WHITE MICA SCRAP

### 3) MICA FINE

It is basically used in Oil Drilling and Welding Electrodes and its size is (-)40 mesh.

### 4) MICA COARSE

It is basically used in Decorative and Fire Resistant Material. Its nature is Grit Free and High Whiteness and its size is (8-20) mesh.

# TRADING INFO

---

Established in 2002 by Mohit Modi proprietor of A.K.INTERNATIONALS  
Trade in MICA SCRAP & MICA FLAKES
